# Creating a Culture of Transformation

*A Day With: Ed Stetzer*  
*author/speaker/pastor/Christian missiologist*

Ed Stetzer is well-known in North America as an expert in the fields of church planting and multiplication. On Feb 5th we have the chance to interact with Ed on the topic of "Transformational Culture Building". As he outlines the biblical foundations for transformation and shares lessons gleaned from research and pastoral experience, Stetzer will be challenging leaders to engage all God's people in the mission of multiplication and disciple-making disciples. Leaders from established churches as well as planters starting new congregations will benefit from this day of equipping.

Lunch, light snacks and drinks will be provided through out the day.

**ED STETZER** is president of LifeWay Research and missiologist in residence at LifeWay Christian Resources, Nashville, TN. Ed has planted, revitalized, and pastored churches. He has trained pastors and church planters
